

## Wet State Biocides

Global manufacturer of isothiazolinone based biocides

### **ACTICIDE® BX-H** and **ACTICIDE® HF**

- Premium wet state biocides based on high active levels of isothiazolinones and formaldehyde donors / formaldehyde for optimum performance
- Broad activity spectrum biocide for the in-can preservation of water based paints

## Dry Film Biocides

New generation of dry film biocides for exterior coatings with **THOR AMME™** technology

- THOR AMME™ 'Advanced Micro Matrix Embedding' for superior dry film performance
- Reduced leaching rate of biocide actives leading to improved dry film resistance against fungal and algal spoilage

### **ACTICIDE® EPW 1**

- AMME™ technology • Long lasting performance

### **ACTICIDE® MKS 2**

- AMME™ technology • Long lasting performance • Carbendazim-free option

### **ACTICIDE® ADA 20**

- Booster AMME™ technology algicide for high performance exterior coatings
